Why choose us?

We are dedicated to making every dog & cat feel safe & comfortable.

We specialise in gentle handling & personalised care
- ideal for puppies, kittens, seniors or special needs fur babies.

All prices given are estimates based on a standard groom for a specific breed and size, with a well maintained coat and typical temperament.

The health and safety of your fur baby is our top priority.

We will discuss with you any potential price adjustments and necessary procedures before we begin the grooming process.

Please plan on your fur baby being with us for a minimum of 90 minutes if they are booked in for a pamper session.

To avoid undue stress and waiting, for both our clients...and their hoomans, we plan our day by allocated time slots.

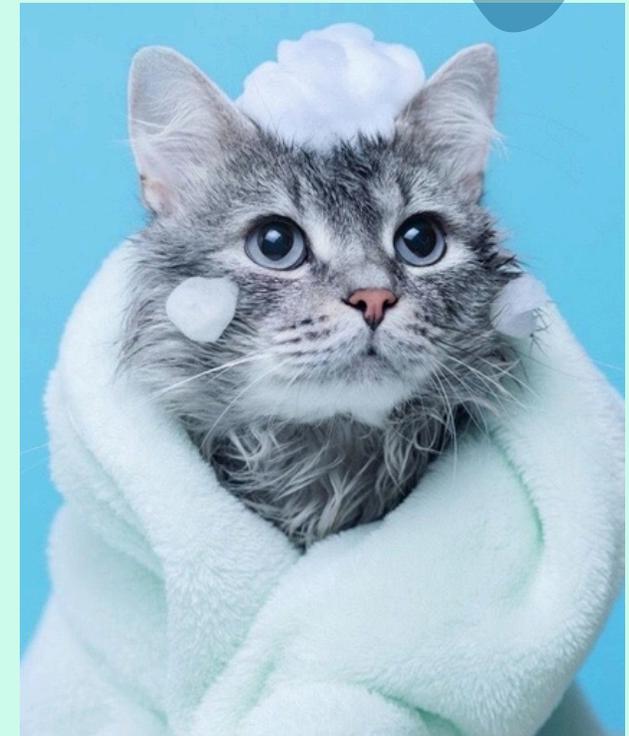

Dog walk-ins are welcome but please understand that a booked client will be groomed first.

We do not groom our cat clients in the parlour.

By prior arrangement, we will come and groom your fur baby, in your home. This avoids unnecessary stress being around dogs and is a lot safer for any escape artists.

Travel costs (depending on distance) to be discussed, when appointment is made.
